III 問 3	<p>The diagram shows a wedge-shaped glass plate (top) resting on a flat glass plate (bottom). A small rectangular piece of paper is placed between them at the right end, with a vertical double-headed arrow labeled D indicating its thickness. Five vertical arrows labeled '単色光' (monochromatic light) point downwards towards the top surface of the wedge. A horizontal double-headed arrow at the bottom is labeled L, representing the length of the wedge.</p>
